Welcome to Kami

We're excited to help you get the most out of Kami's powerful features. Here's an overview of what you'll find.

1. Kami toolbar (left side)

This is where all our Kami tools live including Read Aloud, Markup, Textbox, Drawing, and Add Media.

Questions AI

Quickly create customizable assessments in seconds. Choose Convert to turn existing questions into autograding assessments, or Generate to whip up new autograding assessments from curriculum materials. Find out more here.

2. Document controls (top right)

Collaborator avatars

Click the avatars to open the collaborator panel and see who's working on the doc.

File

Open docs and manage your annotations.

View

Switch to presenter mode and change page orientation.

Export

Export or download your Kami doc.

Tools

Access Text Recognition and Split & Merge.

Search

Scan docs for words, phrases, or specific annotations.

Share

Send work to students directly from Kami.

Initials

Check out and edit your profile preferences.

3. Action Bars

Hover over annotations to see options like **Move**, **Rotate**, and **Delete**. You'll also see accessibility supports like Read Aloud and Voice Typing.

4. Menu bar (top left)

Kami Logo

Click the Kami logo to go back to the Dashboard, where you can find previous documents or start new ones from scratch.

Annotation Bank

Save all your favorite annotations, including Comments and Questions.

Rename

Change the name and location of a file without leaving Kami.

5. More controls (bottom right)

Page control

Navigate through the document with ease.

Zoom options

Zoom in or out of the document.

Help

Find handy links and resources to keep you moving.
